

Radius Pro - Findings & Copy Notes

Advertising the self-serve Radius Pro online tool. Drive customers to design their curve online - never 'send CAD'. Copy for Lee to approve.

The product (what we're advertising)

Radius Pro: the interactive ONLINE tool to design and manufacture curved formply, plywood or MDF, cut to size. Customer sets their curve online, gets an instant price, we deliver it cut to size. Hook (theirs): 'Struggling with complex curves onsite?'

Snapshot (demand from CNC Cut bespoke jobs)

Metric	Value
Win rate (bespoke proxy)	73% (24 won / 9 stalled) - highest
Avg job value	~\$600 - \$1,650
Volume	Highest of the three
Repeat buyers	Perfetto, Invoke, Glenvill, LBA, Frameworks, Montegar, Marc Cotsis

Who buys & how

Builders needing curved sheet material / wall plates cut to their radius. The marketing job: get them to design it in Radius Pro and order online, instead of chasing a bespoke quote.

Their words (use verbatim in copy)

- complex curves onsite
- top and bottom plates
- cut to size / cut to your radius
- the radius is to the outside of the wall
- tails cut to suit on site
- formply / plywood / MDF

What they ask (the builder answers each instantly)

- How much? -> Radius Pro prices it instantly online
- Do I need CAD? -> No - you design it in the tool
- Turnaround? -> made to order, delivered cut to size
- Which material? -> choose formply, ply or MDF in the builder

The angle to lead with

Lead on SELF-SERVE + INSTANT PRICE: 'design your curve online, priced now, delivered cut to size'. It removes the quote wait that stalls bespoke jobs. Never say 'send us your CAD'.

Copy notes - builder-first (no 'send us CAD')

Hero line

"Struggling with curves onsite? Design them in Radius Pro - curved formply, ply or MDF, cut to size and delivered."

Headline options (each passes Urgent-Unique-Specific-Useful)

"Set your radius, get your price, done. Radius Pro cuts your curves to size - online."

"Curved formply, ply or MDF - designed online, delivered cut to size. No quote to wait on."

"Stop hand-cutting curves onsite. Design it in Radius Pro - priced instantly, delivered."

"Your curve, your material, cut to size - priced online in Radius Pro."

"Complex curves onsite? Design once in Radius Pro. We manufacture and deliver, cut to size."

Lead paragraph (landing / ad)

Radius Pro is the online tool for curved formply, plywood and MDF: design your curve, choose your material, get an instant price, and we manufacture it cut to size and deliver. No plans to email, no quote to chase - the curve, sorted online.

Answering their questions (self-serve framing)

- Do I need CAD? - No, you design it in the tool.
- How fast is pricing? - Instant, online.
- Which material/finish? - choose formply, ply or MDF; the tool handles the cut.

Note for decisions

The proven, high-conversion line. Priority = drive builder traffic to Radius Pro + make the online price obvious. The instant price is the whole advantage over the bespoke quote path.

Craftons marketing engine. Demand data = CNC Cut's bespoke curved jobs (the intelligence). Advertising target = the Craftons self-serve online builders. 21 Jul 2026. Working docs: repo research/market-intel/.
